

## VIKTAR TOLTSIK

.NET developer

Minsk, Belarus

Viktor.tolstik.96@gmail.com

Office/Remote/Open to relocation

@viktartolstsik

@fuzzyw0lf

@ViktarTolstsik

## SKILLS

- C#
- WPF
- HTML
- Razor Pages
- CSS
- ASP .NET Core
- JavaScript
- MS SQL Server
- SQL
- SQLite
- Git | GitHub
- 1C-Bitrix

## EDUCATION

### Teacher-programmer

BSUIR: higher education  
2020

### Technician-programmer

BSUIR Affiliate MRC: specialized secondary education  
2017

## ABOUT

As an individual with two years of experience as a programming tutor and two years as a database administrator/engineer, I have developed a foundation in software development, database management and work with legacy code in real-world applications. Now I'm aiming to transit into a software engineering role, where I can apply my skills and knowledge to develop innovative software solutions that meet the needs of users. I am excited about the opportunity to work, grow and learn with a team of talented developers and contribute to the development of cutting-edge applications.

## EXPERIENCE

### Database administrator/engineer

**07.2022 - 08.2024 | BIP - University of Law and social-information technologies**

Ensuring proper maintenance, security and operative capabilities of the local databases. Software development. Managing journaling files. Consulting workers on tools and skills required to work with databases. Web development via 1C-Bitrix. Maintaining, supporting and updating University's website.

- Developed software for monitoring the training of facility's scientific workers, the actual indicators of admission and graduation of graduate students and applicants.
- Worked with website's legacy code, template, creating a site structure, information blocks, setting up components, included areas.
- Implemented numerous visual improvements to the University's website.

### Tutor of the special disciplines cycle

**09.2020 - 07.2022 | BSUIR Affiliate MRC**

Teaching programming languages. Mainly C# (language basics, data processing, GUI creation technologies, introduction to LINQ), to a lesser extent HTML, CSS, Python.

- Worked with lectures, carrying out group classes and laboratory works.
- Participated in preparation of thematic presentations.

## RECENT PROJECTS

### «Science Qualification Monitor» Desktop Application | Developer

**C#, WPF, XAML, Entity Framework, SQLite | 2024**

Designed and implemented an application for monitoring the training of facility's scientific workers, the actual indicators of admission and graduation of graduate students and applicants.

- Analysis of project requirements, development of application architecture, creation and implementation of the UI using WPF, ensuring the user-friendliness and intuitiveness of the user interface;
- Writing code to implement the business logic, database interaction, writing SQL queries, using Entity Framework ORM to work with data, code debugging, fixing errors and optimizing application's performance.

### «Blogster» Web Blog Application | Developer

**C#, ASP .NET Razor Pages, HTML, CSS, JavaScript, Entity Framework, MS SQL Server | 2023**

Designed an application for creating and managing articles in a form of a blog.

- Analysis of project requirements, development of application architecture, creation of the UI using HTML, CSS, Bootstrap, JavaScript and Razor Pages;
- Writing server code in C# using ASP.NET, configuration and interaction with MS SQL Server via Entity Framework, code debugging, fixing errors and optimizing application performance.

### «NoteWorthy» Desktop Notes Application | Developer

**C#, WPF, XAML, Firebase | 2023**

Designed an application for managing notes.

- Development of application, UI, business logic implementation, Firebase interaction design, debugging.
